

IDO Universal

Monograde Diesel Engine Oil

Features & benefits

- Combats corrosion and moisture
- Low ash less than 1%
- Excellent hydraulic oil (SAE 10W and 30)
- Suitable for truck manual transmissions
- Promotes engine cleanliness
- Excellent resistance to high temperatures

Specifications

✓ Meets requirements

IDO Universal oils are blended from select high-quality base stocks and low-ash additives. This formulation has added detergent to ensure engine cleanliness, minimize ring sticking, and reduce liner scuffing.

IDO Universal oils prevent sludge formation, reduce bearing corrosion and cut back on engine rusting.

IDO Universal was developed to reduce inventory for mixed fleet operators. This oil can be used in high-speed diesel engines, construction diesel engines, and some marine diesel engine applications.

IDO Universal all grades meet or exceed Allison C-4 specifications for use in their heavy-duty automatic transmissions.

IDO Universal 30 & 40 grades are prime recommendations for Detroit Diesel 2-cycle engines.

IDO Universal oils can also be used as hydraulic oils, where appropriate if extra care is taken not to mix them with regular hydraulic oils.

Always consult your owner's manual for verification of fluid type and grade!

Supporting data available to demonstrate acceptable performance. Check with Sales Associate for the latest product approvals.

Please note these are typical performance indicators and can change without notice.

This data sheet replaces previous versions prior to December 17, 2024.
